COMPACT

CYBERSECURITY FOR PUBLIC ADMINISTRATIONS

COMPACT Tries the Trials

The COMPACT project is developing a set of training tools in order to cover different aspects of cybersecurity: from "Risk Assessment" and "Security Awareness Training" to "Cyber Security Monitoring" and "Knowledge Sharing". The ultimate goal of these activities is to inform and raise attention about cybersecurity issues among the LPAs' staff, enabling their improvement in this respect, both at work and (why not?) at home. However, what is peculiar about this is the gaming approach to training: Civil Servants shall have to deal with such online courses in a very untraditional way. In our mind, this will definitely raise their motivation and interest. [Read more](#)
